Shoreline Cleanup & VISUALIZING SEA-LEVEL RISE

McLaughlin Eastshore State Park- Albany Beach

Art Credit: John Wehrle www.troutinhand.com

Come help clean up the shoreline and learn about the science of sea rise - and what we can do to prevent it.

When: Saturday, April 21, 2018. (9:00 - 11:00 a.m.). Help clean the shoreline.

(11:00 a.m.-1:00 p.m.) "Visualizing Sea-Level Rise". Music, science and Stroll the "new" Shoreline.

Where: McLaughlin Eastshore State Park, Albany Beach. End of Buchanan Street, next to Golden Gate Fields.

Tips: Snacks and refreshments provided; bring your own water bottle, gloves, hat.

Stroll the "New" Shoreline with sea blue banners. (CESP provides the banners)

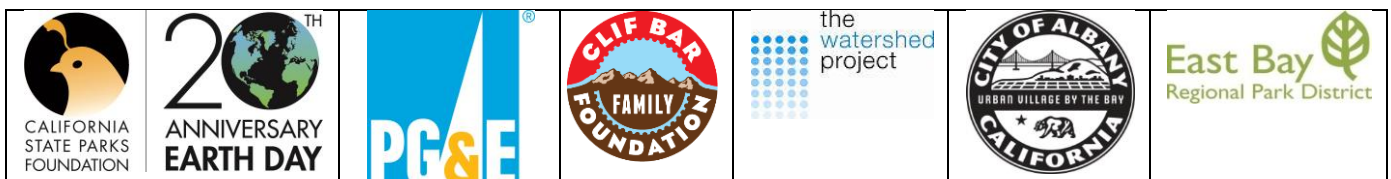

Fun: MUSIC, a photo booth where you can pose with sea creatures moving inland; and

Help clean the shoreline!

Sponsors: Citizens for East Shore Parks (CESP); California State Parks Foundation's 20th Earth Day Restoration & Cleanup presented by PG&E, The Watershed Project, City of Albany, East Bay Regional Park District, Clif Bar.

- See where the "new" shoreline will be with 2-meters of sea rise.
- Learn the science of Sea Rise and climate change from top scientists.
- Hear what we can do from state and local officials - with marsh restoration, shoreline protection.
